

Building the next generation of servants

November, 2016

Praise the Lord! Finally underway!

Slogging Through Official Paperwork

Last October, 2015, we had an official ground breaking for the Bible college's future home. At that point there were still some design and logistical issues that had to be resolved and in early 2016, we began submitting paperwork to Quezon City city hall. After months of working with local government officials on many levels in several different offices, they finally granted our demolition permit a few weeks ago. The pictures below are from the demolition work. Only as God moves can we move. So we pray and press on, trusting Him to bring the college into its new home according to His timing.

Many have prayed and given to the BJMBC building fund. Thank you! Here is the latest information.

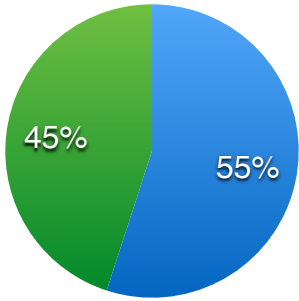

Demolition of the house on the Bible college property – we have used it as a home for missionaries and guests, a dormitory for students, and a classroom.

Not by might, nor by power, but by my spirit, saith the LORD of hosts.

Next Steps

Watching God Provide

- Finished
- Needed

Building Permit

Please pray for the speedy processing of the building permit. All the papers were submitted the first week of November. We are praying that it will be granted before the end of this calendar year. If it is not, then we may be required to redo a significant amount of paperwork again in January. Every step of the process seems to take much longer than it should and there always seems to be just one more document needed, one more signature that takes four days to get, etc. Please pray for wisdom, patience, and a good testimony on our part.

Plans for next school year

We need to move the college out of the Gospel Light Baptist Church building by June 2017 – their Christian school needs space, as do we. Please pray for a ‘Plan B’ if we are not able to move into our new building by then. It is unlikely that our new building will be done by then.

Finances

The Lord has wonderfully provided over half of what is needed for the building fund thus far. Please continue to pray that he would bring in the remainder through His people here in East Asia, as well as in North America. And pray for His blessing on the second fund raising concert the college will put on in March.
